

## What is Film Production?

Piedmont University is introducing the new film production major due to the exponential growth the film industry has had in Georgia.

Students will have access to new equipment and software that will prepare them for a well rounded career. Students will be eligible for jobs like producing, directing, film editing and camera operations.

Required courses for students include:

- Cinematography
- Directing and Producing
- Documentary Writing and Production
- Advanced Editing & Sound
- Screenwriting
- Film Professional Development

## Where do I start?

## FILM PRODUCTION

### Unique

There are no comparable film production programs in Georgia at a small liberal arts school.

### Community

Film production majors will work closely with sports and mass communications majors.

### Career

Film production majors will leave Piedmont prepared to work on any team for the film industry.

### Opportunity

Piedmont provides film industry mentors as well as internships to help students make personal connections.
